Law Debenture provides an efficient, cost-effective independent service of process agent. It has a dedicated and highly experienced full-time staff who are able to offer a rapid, competitive and reliable service.

In addition to accepting appointments as process agent for court actions, Law Debenture acts as agent:

- to receive service of documents in arbitration proceedings
- to receive notices under contracts where an independent party is needed for this purpose
- for overseas companies with a branch in Great Britain under sections 691 and 695 of the Companies Act 1985.

It will act on behalf of one or more parties.

Law Debenture's offices in Hong Kong, Jersey and New York offer similar services in their respective jurisdictions. As appointments are often made at short notice, each office has authority to execute service of process documentation on behalf of other group offices where required to overcome time zone issues.
